

Hercules High School Student Health Center

► Student Health Center

Our Mission is to provide quality coordinated health services that demonstrate student wellness and academic success.

Hercules High Student Health Center was established in June 2007 as a collaboration effort between the West Contra Costa Unified and Bay Area Community Resources, a non-profit agency whose mission is to support the healthy development of individuals and families in the community. It provides health promotion, health education, and wellness counseling to support a school climate, which nurtures positive behavior, assures health and safety, and promotes wellness for students.

**"The Health Center is my safe zone to be who I wanna be."
-Hercules High Student**

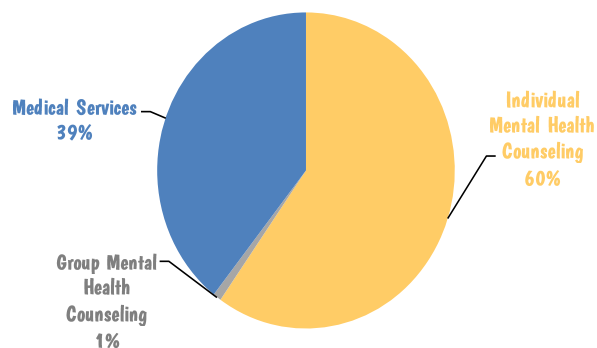

► Services Provided

Mental Health Services include crisis intervention, treatment of depression, stress management, group counseling, and counseling for family and relationship issues.

Health Education is provided on topics like pregnancy prevention, HIV/STI prevention, human sexuality, intimate partner violence and substance abuse prevention. We also provide students with a peer tobacco health education program.

Youth Development activities consist of anti-bullying peer education, Youth Advisory Board, Youth Health Workers, mentoring, and tobacco use prevention peer education.
